TITLE: COMMON REAR DRIVE AXLE ASSEMBLY

RATING:

<input type="checkbox"/>	DIRECTIVE (Action Is Required)	<input type="checkbox"/>	ALERT (Potential Problem)
<input type="checkbox"/>	INFORMATION (Action Is Optional)	<input checked="" type="checkbox"/>	PRODUCT IMPROVEMENT (Enhance Product)

PRODUCT SERIES / MODEL: 6700S Tamper

SERIAL NO: All Models Serial # 151950 and Higher

SUMMARY: The current rear drive axle assembly has been redesigned so it can be used on machines with either the manual shift cable or the current air shift. The current axle was modified to use on the manual shift machines by enabling two detents that are disabled when used on the air shift machines.

OPERATIONAL IMPACT: A common rear drive axle assembly can be stocked for service that can be used on either manual or air shift machines.

ACTION: Order rear drive axle assembly part # 2005770.

CONTACT: If you have any questions or if we can be of any service, please contact Bill Perry or Doug Budreau at the Ludington, MI. facility, (231) 843-3431.
